THIS IS
OMEGA SKINZ

Wrapped by: Engel Wrap, Germany

THE NEW "MATT"

Our matt colours have a completely different look than any other wrap film in the world. The matt top layer is somewhere in between satin and matt. This gives curves and corners a shine that will amaze everyone.

Wrapped by: Trim-Line BV, Netherlands

MODERN CONTEMPORARY COLOURS

Look around you and notice that colour trends are changing. We lead the way when it comes to colours. Whether a car, a company vehicle, motorcycle or superyacht needs to be wrapped, the colours of Omega-Skinz fit exactly in today's times.

Wrapped by: AllWrap Solutions, Germany

MORE COLOUR DEPTH

Our colours are an experience. The colour depth, the underlying pigments and the special construction bring the film to life. The contours of the vehicle stand out even more and provide a wow effect.

Wrapped by: Signicate, Germany

MORE STABLE AND STRONGER

Because several layers are cast on top of each other during production, the film is more stable and retains its shape better during processing. This is ideal for large areas.

Wrapped by: Rollers Team, Poland

EASY TO APPLY AND CORRECT

Due to the unique construction of the film, in combination with the special adhesive, the film can be easily applied on both concave and convex surfaces. Releasing easily for correction and repositioning is no problem. The film does not break or distort.

Wrapped by: Insignity, Belgium

2 OR 3-PASS CAST PVC FILM

Omega-Skinz is cast multiple times, in order to obtain the most beautiful colours. This creates more colour depth in all layers and the top layer also remains intact when the film is mounted and deformed.

Wrapped by: Engel Wrap, Germany

EXCLUSIVE PATTERNS AND EFFECTS

Developments at Omega-Skinz are advanced much further than the competition. For example, there are films with exclusive patterns and effects that create an incredible look on a vehicle. Find out for yourself and you will be amazed.

Some would argue that Nardo Grey started the grey wrap movement, and many would be right. There's a reason this Audi fan favorite has taken the industry over by storm. It's a gorgeous shade of grey with hints of blue that turns heads everywhere you go!
